### DETAILED ACTION

1. **Claims 1-42** have been examined.

### Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description Page 11; items "51, 52, 53" with respect to block 5; etc.. Examiner considers items "51, 52, 53" as typo error where 501, 502 and 503 is the correct corresponding number with respect to block 5 of fig.1. Examiner request Correction of all similar errors with respect to specification in a manner that all reference signs mentioned in the description is included in the corresponding drawings.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. **Claims 1-6, 9-24, 26-31 and 34-42** are rejected under 35 U.S.C. 102(e) as being anticipated by Davis et al (6,611,607 B1).

Also see entire Davis's content for detailed description of the above limitations.

Art Unit: 2132

**As per claims 2-3, 5-6, 9, 10, 12-15, 17-20, 22, 24, 26, 28-29, 31, 34-35, 37-39 and 41-42** Davis et al (6,611,607 B1) teach embedding control information as electronic watermark information where the recording and copying is being done by detection of the superimposed control information on the signal (see col.5, lines 47-67; col.6, lines 1-15); adding identification information to the content information by watermarking and copying by detection of the identification information with respect to the corresponding information such as music (see col.6, lines 5-9 where the owner name may be embedded or col.5, lines 14-27 where the title of the content as an identification of the content may be used for watermarking); and the watermarking of the number of copy count is superimposed by watermarking (see col.6, lines 30-37); and where the updating of the copy control history is recorded (see col.6, lines 30-59); and where the identification information is a piece of music indicated by title (see col.5, lines 14-47).

### ***Allowable Subject Matter***
